### **DETAILED ACTION**

**Claims 9-13** and **25-27** are pending, and after the Examiner's Amendment, *infra*, are in condition for allowance.

#### ***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 07/17/2006 was correctly filed. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the IDS was considered by the Examiner. Please refer to Applicant's copy of PTO-1449, submitted herewith. The references not provided by Applicant have been found by the Examiner and are included to be scanned into the IFW.

#### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Suhadolnik on 04/02/2008.

The application has been amended as follows:

- **Claim 26:** Delete the words, "polymeric colour particles" and in their place, insert the words, "coloured polymeric particles".

***Response to Remarks***

Applicant is correct in pointing out the rejection over **Claim 27** was in error, as it depends from **Claim 9**, which was found allowable in the previous Office Action. The rejections put forth over **Claims 1-7, 15, and 23** under 35 U.S.C. 103(a), as well as the claim objections over **Claims 2-8, 14, 15, 23, and 25-27** are withdrawn.

***Reasons for Allowance***

Applicant's invention is drawn to various mixtures of diketopyrrolopyrrole pigments and a process of producing colored plastics or colored polymeric particles via incorporating these mixtures. There are many references disclosing the core of Applicant's claimed mixtures,

For instance, the closest prior art, WO 98/56859, published 06/09/1997,

discloses a compound, which reads on one of the compounds of the instant mixture claimed in **Claim 9** (renumbered **Claim 1**). However, there is no mention of the additional compound in the '859 publication. The additional compound is novel and seems to derive its novelty from the S-alkyl group (or O-alkyl group) attached to the phenyl ring. Thus, the prior art does not disclose the mixture claimed in the instant Application nor does it suggest

Art Unit: 1626

the second compound of the instant mixture. Therefore, there is no art which anticipates or renders the instant invention obvious. **Claims 9-13** and **25-27** are ALLOWED.

***Telephone Inquiry***
